[A WORLD OF PAIN](#) By [Yudhijit Bhattacharjee](#), photos by [Robert Clark](#), [David Guttenfelder](#) & [Robin Hammond](#)

- **UNRAVELING THE MYSTERIES OF PAIN:** With the opioid crisis, the quest to understand the biology of pain and explore new ways to treat it has taken on fresh urgency. Addiction is not the only problem, though. Opioids don't work for many patients who take them, because, as researchers are finding out, not all types of pain, or all kinds of patients, respond to the same pain relievers similarly. This feature will look at groundbreaking advances in the science and therapies to understand and treat pain.
- **AVAILABLE:**
 - **Interviews** with award-winning author Yudhijit Bhattacharjee
 - **Interviews** with National Geographic photographers Robert Clark, David Guttenfelder and Robin Hammond
 - **Thoughtful & striking images** of the various ways people deal with pain
