Wendell F. Holland II is the founder and chief designer at Beve Unlimited, a Philadelphia-based custom furniture company specializing in reclaimed wood. Many, however, might know Holland from his time competing on "Survivor," winning season 36: Ghost Island. After "Survivor," he took his passion for building to HGTV, where he has appeared on "Smart Home 2022," "Fix My Fail," "Home Town Takeover" and "Beach Cabana Royale." He was also the co-host of HGTV's second season of "Hot Mess House." Holland is still designing and building while raising his first
